- You are welcome to stay around and network and have refreshments after the meeting.

[Feel free to pass this invitation on to](#)

## **Anatomy of a Data Breach**

**Guest Presenter:**

**Tom Allen**

**CEO**

**Opango, Inc.**

A data breach is the intentional or unintentional release of secure or private/confidential information to an untrusted environment. Incidents range from concerted attack by black hats associated with organized crime, political activist, or national governments to careless disposal of used computer equipment or data storage media.

Examples of situations where data breaches occurred, the consequences, and what the company could have done to prevent the problem will be described. The presentation will also include a discussion of how to meet the new FAR requirements for a secure system that must be met by December 31, 2017. including specific recommendations on

others you think would be interested.

what small to large companies can do to secure their system.

We will discuss the growing Advanced Persistent Threat, the expanding attack surface, social hacking, economic consequences, and securing your network.

#### Guest Presenter

With more than two decades of facilitating, teaching, and most importantly, real-life, in-the-trenches business experience, **Tom Allen**, President/CEO of Opango, is dedicated to helping business professionals and entrepreneurs understand how to create a well thought-out executable business plan, a roadmap, to take their

ideas and businesses to the next level.

Tom brings a passion and energy to his presentation that empowers his audiences to understand their potential and devise strategies to identify their toughest business challenges and implement critical action plans that accelerate their sales cycles and maximize profits to greater levels.

He has advised tech startups and established telecom business owners and executives to succeed where others have failed. Comfortable in the boardroom and also on the factory floor, he has led teams at all organizational levels and across many industries. He takes great joy in their successes.

Tom's specialty is collaborating with his clients to install business infrastructure, leadership methods, and management processes to achieve self-sustaining businesses that function smoothly, consistently, and profitably.

Tom holds an Executive MBA from University of Florida and is an avid pilot. In his spare time Tom serves as a judge for Texas A&M, University of Texas at Dallas, and Lamar University Business Plan Competitions.

Besides flying, his wife and children, one of Tom's greatest

Note: A&D Forum members have first opportunity to sign up for tours. Signup for members is typically available about 3 weeks before the meeting.
