**A Tour of
Element Huntington Beach
Materials Testing and Product
Qualification Testing**

Host:

**Jim Riley
General Manager**

Although relative new in the Global Testing Inspection & Certification (TIC) sector, Element has a long history and heritage that they are justifiably proud of. Formed out of the in-house laboratories of Stork in 2011, Element Materials Technology can trace its origins back to 1827 - over 190 years ago. Element Materials Technology exists to ensure that the materials and products that are in use in some of the world's most advanced industrial sectors are always safe; of marketable quality; compliant to all relevant industry standards and most of all are fit for purpose in their end application.

South Bay Chapter Steering Committee

- **George Uhl (Chapter Chair)**, First Vice President, Senior Relationship Manager, Community Bank
- **David Patterson (Chapter Vice-Chair)**, CEO, Aerospace Manufacturing & Engineering
- **Marwan Hammouri**, President & CEO, Brek Manufacturing
- **David Conrad**, VP Sales; Marketing and Customer Support, Zodiac Aerospace
- **Marty Jones**, General Manager, Defense, Avcorp Composite Fabrication
- **Ward Olson**, President, Dasco Engineering Corporation

- **John Anderson**, Director, California Manufacturing Technology Consulting
- **Kim Defenderfer**, Senior Vice President, Regional Manager, California United Bank
- **Ivan Rosenberg**, Executive Director & Co-Founder, The A&D Forum, & Managing Partner, InVista Associates.

At Element, what they ultimately deliver is Certainty to those industries where failure simply is not an option. Through the work of their Engaged Experts, they ensure that the materials and products that they test and certify are of the right quality; are safe; meet all relevant international industry standards and are ultimately fit for purpose.

The Southern California facility has been in operation since 1982, providing materials testing services and consulting for clients worldwide. The multidisciplinary staff and state-of-the-art high capacity laboratory support diverse quality requirements--from routine high-volume testing to complex materials analysis and failure investigations.

Element's Nadcap-accredited testing capabilities at Element Huntington Beach supply the base for quality control and product improvement in West Coast aerospace, military, nuclear, and medical manufacturing industries among others. Their specialists are frequently called upon to provide experts witness testimony and litigation support.

Host

Jim Riley is an accomplished executive with over 36 years of experience in the Metals Testing Certifications and Inspection industry. Jim has run the Huntington Beach operation since 2000. Jim was born in California and is a graduate of University of San Diego. He is involved with the Aerospace
