Doing Aviation Business in China Some Observations and Lessons Learned

Guest Presenter: David Conrad

VP Sales; Marketing and Customer Support
Zodiac Aerospace

In my career, I have had the opportunity to have two expatriate assignments in the People's Republic of China working in aviation. Through these assignments I have been able to be a part of one of the fastest market expansions we have ever seen in the aviation industry as China literally grew from a small market opportunity to an enormous one almost overnight. The first time I went to China I worked for a major Western aerospace manufacturer trying to sell new OEM equipment as well as spares and repairs. This was a time when China was first starting to want to be a major player but they will still trying to understand how to best do this, and while I learned a few things, I really still saw business through the Western perspective. When I had the good fortune to return a little over

The Aerospace & Defense Forum is a global aerospace and defense leadership community of over 700, providing opportunities for sharing of information, current events, and analysis, mutual support and encouragement, partnering, innovation, and performance breakthroughs. More information at AerospaceDefenseForum.org

three years later, I worked for a State-Owned-Enterprise and was one of just two foreigners in a 4,400 employee Part 145 MRO. This caused me to have to understand things from a very different perspective.

In my presentation, I want to share with you some of the "Voice Of The Customer" in a way that most people will never get to see or hear. This includes the politics behind the programs and the decisions, the Byzantine nature of the airlines in China, the differences in how the Chinese view business and doing business with the way we perceive business in the west, some observations on where the market is headed in China, cultural issues that you need to be aware of when doing business, what some key player are doing and some ways they are winning and some strategic approaches to consider.

The bottom line is that doing aviation business in China is not like doing business anywhere else. You have to think differently, act differently and work differently. Doing business in China will be your greatest challenge and hopefully just as rewarding - it is not for the faint of heart.

About Zodiac Aerospace

[Zodiac Aerospace](#) is a French corporation that specializes in the production and development of on-board systems, safety systems and cabin interiors . The company is a world leader in aerospace equipment and systems for commercial , regional and business aircraft, as well as helicopters and space applications.

Zodiac Aerospace's technological expertise is based on three core business lines: comfort and life on board aircraft, onboard systems, and safety on the ground and in-flight; and they are grouped into five business segments - Zodiac Cabin & Structures, Zodiac Seats, Zodiac Galleys & Equipment, Zodiac Aircraft Systems, Zodiac Aerosafety, supplemented by the after-sales business of Zodiac Services.

David Conrad is the Vice President, Sales, Marketing and Customer Service at Zodiac Water & Waste Systems based in Carson, CA. In this role, he is responsible for leading all sales, market and customer support functions for the leading supplier of water and waste technology to the aviation and aerospace industry for over 50 years.

Prior to joining Zodiac Water & Waste, Mr. Conrad spent three years as the Director International Sales & Marketing of Guangzhou Aircraft Maintenance and Engineering Co., Ltd (GAMECO) a Part 145 MRO based in Guangzhou, People's Republic of China. In this role he was responsible for leading the development of all third party international airframe and component business for GAMECO, as well as the development and marketing of the GAMECO brand internationally. He also led the development of OEM partnerships to grow the capabilities of GAMECO.

Mr. Conrad has more than twenty eight years leadership experience in the global aviation and aerospace markets with extensive expertise in business development, sales and marketing, as well as experience managing businesses including P&L, strategic planning and process improvement. Mr. Conrad also served as the Vice President, Sales, Marketing and Customer Service as well as General Manager PSI at Rexnord Aerospace

He has also held the position of Senior Director, Business Development, China Region for Goodrich Cargo Systems (based in Beijing, China). Prior to that he was Vice President, Marketing/Customer Service at AeroUnion Corp. and earlier had progressed through a number of business development and leadership positions in Honeywell. Mr. Conrad holds a B.S. degree in Chemical and Petroleum Refining Engineering from the Colorado School of Mines.

August 16, 2013 Meeting

- Please check-in on arrival.
- Attire is business casual.
- Park in the building or for free across the street at the Century City Mall
- A light continental breakfast will be available starting at 7:15AM.
- Bring a business card - they will be duplicated and everyone will get a copy of all attendee's cards.
- Flyers and other material may be placed on the receptionist's shelf for pickup before and after the meeting. Please do not distribute anything during the meeting.
- Because of the large number of attendees, introductions will be minimal - your name, company, industry, and a 5 word "elevator speech". We encourage you to be creative!
- You are welcome to stay around and network after the meeting.

Feel free to pass this invitation on to others you think would be interested.
